**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, filed December 16, 2008, with respect to claims 33-40 have been fully considered and are persuasive. The rejection of claims 33-40 has been withdrawn.

***Allowable Subject Matter***

2. Claims 33-40 are allowed.

3. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or fairly suggest a photographing system, comprising: an information processing unit which detects anticipated photographing positions using received said photographed image data and said rough photographing position information as well as map information stored therein, creates images in virtual scope at detected positions from said map information by simulation, subjects said images in virtual scope to pattern matching with said photographed image, and decides a position which degrees of matching exceed a predetermined value as candidate photographing positions to obtain photographing position information being more accurate than said rough photographing position information, and supplies said photographing position information to said camera through said receiving/supplying unit (independent claim 33, claims 34-40 depend from claim 33).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
